

Next Generation R-Series Oil-Flooded Rotary Screw Air Compressors

200-250 kW (250-350 hp)

Ingersoll Rand works to keep you ahead of your competition with Next Generation R-Series air compressors that boost productivity, lower operating expenses and extend equipment life.

Next Generation R-Series air compressors. The intelligence you need—to win.

World-class performance

- State-of-the-art airend delivers as much as 16% improved efficiency and 21% greater airflow capacity; two stage airend available for even greater efficiency and reduced bearing load to extend life
- PAC[™] protection, V-Shield[™] technology and free-floating cooling system help maximize uptime
- Xe-Series controller with intuitive, high-resolution color display offers remote access with any common, current web browser
- NEMA Premium[®] efficiency motor delivers significant energy savings, and the optional variable speed drive (VSD) further decreases energy demands
- Air-cooled and water-cooled options to best match your operating environment
- Harsh environment options for high and low ambient temperature as well as outdoor operation

Standard Features include:	Optional Features include:
Premium TEFC motor with space heater and RTD	Outdoor modification/rain protection
Star-delta reduced voltage starter	Low ambient temperature protection to -10°F (-23°C)
Noise attenuation enclosure with hinged, removable doors for easy service access	High ambient rating up to 131°F (55°C)
Stainless steel and PTFE coolant hoses with repeatable leak free connections	Premium high dust filtration
Free-floating cooling system optimized for efficiency and serviceability	Fluid containment system
PAC™ Protection adjusts operating parameters in response to compressor operation	Ultra FG lubricant
Package rating for operation up to 115°F (46°C)	Automatic power outage restart option (PORO)
Package pre-filter	Solid state reduced voltage starter
Control panel with enhanced environmental protection against dust and liquids	Flow control modulation control
Long-life consumables and 16,000-hour life Ultra EL lubricant	Phase monitor protection
